**01**

To attach the drop-down door to a single unit, follow this instruction. If you're installing it on racking with multiple units, refer to page 3.

Align the spigots on the fixing brackets with the lower slots of the drop-down door, using a nylon washer between the bracket and the door. Place the drop-down door into position and secure the fixing brackets to the side panels using M8x16 coach bolts and M8 flange nuts.

**02**

For attaching the drop-down door to racking with multiple units, please follow this instruction. If you are installing it on a single racking unit, refer to page 2.

Align the spigots on the fixing brackets with the lower slots of the drop-down door, using a nylon washer between the bracket and the door. Place the drop down door into position and secure the fixing brackets to the side panels using M8x16 coach bolts and M8 flange nuts.

Note: Ensure the racking side panels are oriented as indicated below with the label on the middle side panel(s) facing as shown.
