PRODUCT INFORMATION

ULTILOCK
HOOKLOCK

Van Guard stands at the forefront of van storage and security solutions, renowned for our commitment to innovation and reliability. Within our extensive product range, the ULTILOCK Hooklock stands out as evidence of our innovative ethos. As the first van hooklock to achieve the prestigious Gold Standard Sold Secure status, it embodies excellence in security and peace of mind for van owners.

With van security representing the fastest growing sector in the van accessory marketplace due to the escalating incidents of van break-ins across the UK, it is crucial that we offer the ultimate security solution for van owners and drivers.

Given that aftermarket Hooklocks are widely recognised as the most popular and effective van security locks available, the ULTILOCK Hooklock remains the preferred choice for our Trade customers. Exclusively accessible through our extensive network of installers across the UK, it ensures heightened security for van owners nationwide.

THE FIRST VAN HOOKLOCK TO ATTAIN GOLD STANDARD SOLD SECURE STATUS

Secured by Design

Official Police Security Initiative

The ULTILock Hooklock was the first van hooklock of its kind to be awarded Gold Standard Sold Secure status by Sold Secure, the UK's most recognised premier security testing and certification house.

Sold Secure is dedicated to reducing the risk of van crime by assessing security products through manual attack testing.

To attain the Gold Standard Sold Secure status, the ULTILock Hooklock underwent a range of specific tests:

- Hookbolt withstood hammer & chisel attack for 5 mins
- Cylinder withstood drilling for 5 mins
- Cylinder withstood access & snap test for 5 mins
- Lock case withstood drill & manipulation test for 5 mins

We are members of Secured by Design, demonstrating our commitment to designing and manufacturing products that meet the highest quality and security standards.

Secured by Design is the only way for companies to obtain police recognition for security related products in the UK, through a Police Preferred Specification.

A scheme developed 20 years ago, the product-based accreditation scheme provides a recognised standard for all security products that effectively deter and reduce crime. The ULTILock Hooklock has attained the Secured by Design product accreditation, which gives our customers confidence their lock is secure and gives the Hooklock additional credibility.
