GUARD**

PRODUCT INFORMATION

ULTILOCK
HOOLOCK

As a leading British manufacturer of commercial vehicle accessories, Van Guard have tapped into their previous experience in van security by launching the all-new ULTILOCK Hooklock – the first lock of its kind to attain Gold Standard Sold Secure status.

With van security the fastest growing sector in the van accessory marketplace due to the ever-increasing rise in van break-ins across the UK, it was imperative that we delivered the ultimate security product for van owners and drivers. Renowned for our experience and reputation for manufacturing high quality van kit, substantial research and development was undertaken to bring as much of the manufacturing process in-house providing us with greater control of the supply chain.

With aftermarket Hooklocks being the most popular and effective van security lock in the marketplace, the ULTILOCK Hooklock is the default option to our Trade customers and is exclusively available to our vast network of installers around the UK.

THE FIRST VAN HOOKLOCK TO ATTAIN GOLD STANDARD SOLD SECURE STATUS

The UTILock Hooklock was the first van hooklock of its kind to be awarded Gold Standard Sold Secure status by Sold Secure, the UK's most recognised premier security testing and certification house.

Sold Secure is dedicated to reducing the risk of van crime by assessing security products through manual attack testing.

To attain the Gold Standard Sold Secure status, the UTILock Hooklock underwent a range of specific tests:

- Hookbolt withstood hammer & chisel attack for 5 mins
- Cylinder withstood drilling for 5 mins
- Cylinder withstood access & snap test for 5 mins
- Lock case withstood drill & manipulation test for 5 mins

We are members of Secured by Design, demonstrating our commitment to designing and manufacturing products that meet the highest quality and security standards.

Secured by Design is the only way for companies to obtain police recognition for security related products in the UK, through a Police Preferred Specification.

A scheme developed 20 years ago, the product-based accreditation scheme provides a recognised standard for all security products that effectively deter and reduce crime. The UTILock Hooklock has attained the Secured by Design product accreditation, which gives our customers confidence their lock is secure and gives the Hooklock additional credibility.
